Detailed Course Description

This 1 day virtual travel health update course covers all the recent travel health updates. Along with the e-learning module included, it also counts as an immunisation update in line with [National Minimum Standards for Immunisation Training \(PHE & RCN\)](#). This is an interactive and engaging blended travel health update course. With a virtual element as well as an e-learning element which includes immunisation update training core modules.

Travel Health Update: Core Modules

- Updates relating to travel health diseases
- Updates relating to international travel regulations
- Good Practice Guidance for Delivering a Travel Health Service (FTM, RCPSG)
- Using the '5T's of Tropical Disease' and the 'Travel Vaccine Traffic Light' tools.
- Refresher & common myths in travel health
- Q&A session for problems encountered in practice

(A Travel Health Update certificate will be allocated on successful completion of the day).

E-learning element: Annual Immunisation Update

- Current issues in immunisation
- Recent epidemiology of vaccine preventable disease
- Changes to vaccine recommendations or national policy
- Update on vaccine ordering, storage and administration
- Any changes to legislation relevant to vaccination
- Review of current practice, recent vaccine incidents and identification of areas for improvement

(an Annual Immunisation Update certificate will be allocated on completion of this e-learning).
